

I am a K-LOVE Supporter, financially and spiritually. I feel so strongly about the Great things that K-LOVE provides to our community, not just positive music, but, also free advertising for non-profit churches with their local events, free pastoral service to any and all who call in. Not to mention, Internet streaming access to those fighting in other countries to keep our service folk connected to us back here at home and minister to them where they are. Please don't take K-LOVE away. I couldn't do without it.
